

# Needle Free

By R. Mack Harrell, Amanda Jo, Billy Lee, Adam Lasher and Resa Levetan

I know a girl  
Who dreads the shot  
They use to make  
Her sugar drop...  
Go too low and  
Things get crazy fast...

And I know a boy  
Who doesn't look sick  
But he lives in a prison  
Of needle sticks  
And dreams sweet dreams  
That never come to pass...

**They can be  
Needle free  
They can be  
Needle free  
No more tears...  
No insecurity...  
They can be...  
Needle free.**

For years they've endured  
More than they'll tell  
Held back for lack  
Of a beta cell  
Praying for miracles  
Wishing on stars

(Amanda) When daily life  
Demands the nerve  
To fight a fight

You don't deserve  
The time is right  
To beat this dread disease

People can't be  
Sugar slaves  
Every soul...young and old  
Needs to be...needle free

**We can be  
Needle free  
We can be  
Needle free  
No more tears  
No insecurity...  
We can be...  
Needle free...  
We can be  
Needle free  
Help us be  
Needle free  
End the tears...  
The insecurity...  
We can be... needle free....  
We can be...needle free...  
WE WILL BE...NEEDLE FREE....**
